SUBJECT INDEX TO VOLUME 113

Thermal and fluid design

Natural convective flow between an array of vertical cylinders, S.J. Kowalski and Z. Lipnicki 113 (1989) 1
Simple functions for the fast approximation of light water thermodynamic properties, W.J. Garland and B.J. Hand 113 (1989) 21
A critical heat flux model based on mass, energy, and momentum balance for upflow boiling at low qualities, S.H. Chang and K.W. Lee 113 (1989) 35
Transient-effects modeling of critical heat flux, S.H. Chang, K.W. Lee and D.C. Groeneveld 113 (1989) 51
Two dimensional quench front progression in a multi-assembly rod bundle, C. Housiadas, J.M. Veteau and R. Deruaz 113 (1989) 87
Verifications of the design calculations of the immersed cooler system during the start-up tests of SNR-300, U. Willrodt 113 (1989) 121
Demonstration of EBR-II power maneuvers without control rod movement, L.K. Chang, D. Mohr, H.P. Planchon, E.E. Feldman and N.C. Messick 113 (1989) 141
Hydrogen mitigation in nuclear containments by combustion in cooling ducts, R.K. Kumar 113 (1989) 149
Leak detection in nuclear piping outside containment (technical note), H.P. Bausch, V.K. Chexal and J.S. Horowtiz 113 (1989) 155
The coupling algorithm between fuel pin and coolant channel in the European accident code EAC-2, G. van Goethem and K. Lassmann 113 (1989) 323

Engineering mechanics

A contribution to computational modelling of reinforced concrete structures subjected to impact loadings, V. Adamík and P. Matejovič 113 (1989) 111
Experimental and analytical study of creep cracks damage in high temperature sodium plant branch connections, F. Corsi, A. Fabi, P. Di Giamberardino, G. Botti, G. Pasquale and V. Dapor 113 (1989) 385
On the state of LMFBR structural analysis and existing rules with regard to Class 1 components of SNR 2, M. Bauermeister and H. Laue 113 (1989) 403
Seismic sloshing experiments of large pool-type fast breeder reactors, A. Sakurai, Y. Masuko, C. Kurihara, K. Ishihama, T. Yashiro, Y.W. Chang, and E. Rodwell 113 (1989) 423
Numerical simulation of seismic sloshing of LMR reactors, Y.W. Chang, J. Gvildys, D.C. Ma, R. Singer, E. Rodwell, and A. Sakurai 113 (1989) 435
Study on the seismic response of a reactor vessel of a pool type LMFBR including fluid–structure interaction, K. Fujita, T. Ito, M. Tashimo, A. Sakurai and C. Kurihara 113 (1989) 455

Materials properties

A phenomenological investigation of in-reactor cracking of Type 304 stainless steel control rod cladding, M.P. Manahan, R. Kohli, J. Santucci and P. Sipush 113 (1989) 297
Use of elastic calculations in analysis of fatigue (factor K_e), R.L. Roche 113 (1989) 343
Steam generator tube cracks at Dampierre 1 EDF PWR plant impact on plant safety, B. Flesch and F. de Keroulas 113 (1989) 357

Mechanical design, component fabrication and testing

An overview of development and application of acoustic emission methods in the United States, P.H. Hutton 113 (1989) 59
Acoustic emission inspections of nuclear components considering recent research programmes, P. Jax and K. Ruthrof 113 (1989) 71
General review of recent activities in acoustic emission technology in Italy, A.C. Lucia and F. Tonolini 113 (1989) 81
Blowing a U-tube seal, G.C. Gardner and H.S. Oates 113 (1989) 131
Steam generator tube cracks at Dampierre 1 EDF PWR plant impact on plant safety, B. Flesch and F. de Keroulas 113 (1989) 357

Probability of crack-induced failure in BWR recirculation piping, G.S. Holman 113 (1989) 369

Reactor concepts and systems analysis

Some uses and limitations of fuzzy logic in artificial intelligence reasoning for reactor control, M.A.S. Guth 113 (1989) 99
Foreword to the Special Issue on Artificial Intelligence Applications in Nuclear Power, D. Majumdar 113 (1989) 167
1. Introduction to the Special Issue on Artifical Intelligence Application in Nuclear Power, D. Majumdar 113 (1989) 171
2. A quick overview of artificial intelligence and expert systems, R.S. Engelmore and D. Majumdar 113 (1989) 173
3. Artificial intelligence applications in the nuclear industry: An international view, D. Majumdar 113 (1989) 181
4. Knowledge-based systems in process fault diagnosis, A.L. Sudduth 113 (1989) 195
5. Alarm filtering and presentation, M.A. Bray 113 (1989) 211
6. Applications of artificial intelligence to reactor and plant control, J.A. Bernard 113 (1989) 219
7. Development and application of AI technology to plant operation and support, J.I. Sackett and J.E. Mott 113 (1989) 229
8. Human–machine interactions: The human element of expert systems for the nuclear industry, W.R. Nelson 113 (1989) 241
9. Artificial intelligence applications in accident management, D.G. Cain 113 (1989) 251
10. Intelligent robotics and remote systems for the nuclear industry, D.K. Wehe, J.C. Lee, W.R. Martin, R.C. Mann, W.R. Hamel and J. Tulenko 113 (1989) 259
11. Probabilistic risk assessment and intelligent decision support systems, J.S. Wu, G.E. Apostolakis and D. Okrent 113 (1989) 269
12. Summary and concluding remarks, A.B. Dobrzeniecki, L.M. Lidsky and D. Majumdar 113 (1989) 283
PWR life evaluation project of EDF, R. Noel 113 (1989) 337

Structural design, construction methods and testing

A contribution to computational modelling of reinforced concrete structures subjected to impact loadings, V. Adamík and P. Matejovič 113 (1989) 111

Core physics and fuel design

Steady-state fission gas behaviour in uranium–plutonium–zirconium metal fuel elements, W.G. Steele, A.R. Wazzan and D. Okrent 113 (1989) 289

Nuclear safety

Natural convective flow between an array of vertical cylinders, S.J. Kowalski and Z. Lipnicki 113 (1989) 1
Verifications of the design calculations of the immersed cooler system during the start-up tests of SNR-300, U. Willrodt 113 (1989) 121
Hydrogen mitigation in nuclear containments by combustion in cooling ducts, R.K. Kumar 113 (1989) 149
Leak detection in nuclear piping outside containment (technical note), H.P. Bausch, V.K. Chexal and J.S. Horowtiz 113 (1989) 155
